|---------|-----------------------------------------------------------------------------------------------------------------------------------|
| 型号      | <b>NVS-33</b>                                                                                                                     |
| Product | 网络直播编码器                                                                                                                           |
| 视频输入    | HDMI x1<br>SDI x1                                                                                                                 |
| 支持视频格式  | 1080p 60/59.94/50<br>1080p 30/29.97/25/24/23.98<br>1080i 60/59.94/50<br>720p 60/59.94/50<br>480i 59.94, 576i 50                   |
| 视频输出    | ----                                                                                                                              |
| 音频输入    | SDI & HDMI embedded audio<br>RCA L/R x1                                                                                           |
| 编码格式    | H.264/AVC, Main/High Profile Level 4.1                                                                                            |
| 视频码流    | Record Only: Up to 16Mbps (1080p50/60)<br>Stream Only: Up to 10Mbps (1080p50/60)<br>Rec+Stream: 10Mbps (1080p25/30)               |
| 音频模式    | Stereo/Mono                                                                                                                       |
| 音频码流    | Stereo: 64~384Kbps<br>Mono: 32~192Kbps                                                                                            |
| 音频延迟    | ----                                                                                                                              |
| 串流协议    | TS over TCP/UDP (unicast & multicast)<br>RTSP over HTTP/TCP/UDP (RTSP Elementary Streaming)<br>RTMP/RTMPS (Publish)<br>HLS<br>SRT |
| 网络接口    | 1x RJ45 (10/100Mbps Ethernet)                                                                                                     |

|        |                                               |
|--------|-----------------------------------------------|
| 录像文件格式 | MP4                                           |
| 存储方式   | SD Card x1<br>(File System: NTFS, FAT, exFAT) |
| 特殊功能   |                                               |
| 电源     | DC 12V                                        |
| 尺寸     | 220 x 95 x 47 mm                              |
| 重量     | 0.7 kg                                        |
| 操作温度   | 0~40 °C                                       |
| 包装明细   | 1 x NVS-33 product<br>1 x AD Switch DC 12V    |
